Mr. Dennis Rhine,  
Production Manager  
Interpace Industries  
735 West Harrisville Road  
Ogden, Utah 84404

Dear Mr. Rhine:

Re: Interpace Corporation Reclamation Surety, Clinton Pit,  
M/049/006, Utah County, Utah, and Pleasantview Mine  
M/057/003, Weber County, Utah

The Division's certified letter of September 11, 1991 allowed Interpace 60 days from the date of receipt to post a revised reclamation surety for both mine operations mentioned above. Since our transmittal of that letter, Division staff members have performed site inspections of both mines per your request. The inspection were conducted to discuss reclamation specifics for the Pleasantview site and evaluate revegetation success on reclaimed portions of the Clinton site.

In the interim, Interpace has performed the earthwork portion of reclamation at the Pleasantview mine. As of this date, Division staff have not performed a second inspection of the Pleasantview site to evaluate the work performed. We hope to schedule an inspection in the near future before weather conditions prevent access.

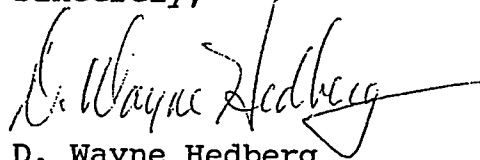

In consideration of Interpace's good faith efforts in performing partial reclamation of the Pleasantview site and the satisfactory revegetation results on the 17 acres reclaimed at the Clinton site, the Division will grant Interpace an extension until January 6, 1992, to post the required reclamation surety. After the second Pleasantview inspection is performed, the Division will appropriately revise the reclamation cost estimates for both sites and notify Interpace accordingly.

In addition to posting the reclamation surety, Interpace will be required to complete new Reclamation Contract forms for both sites. A blank copy of FORM MR-RC and an instruction sheet is enclosed for your use.
